

As New West begins reopening dog parks we have very strong concerns regarding how this impacts the safety of ourselves, our clients and community.

Should you choose to bring your dog to dog parks at any point, we ask that you do not also attend daycare until further notice.

Please connect with us to keep up communication as transparently as possible.

We remain open due to a need. We have clients that have very long work hours... others who's dogs have really extreme separation anxiety.. the list goes on. But we can't compromise our health or yours. Because of this need we are able to continue to intake family dogs who need a break in their days as well. There is too much risk to do both at this time.

Thank you for understanding and for your cooperation xoxo
